

**Mr. Fishpaw's Kindergarten class discussed what the weather was like on the day they were born.**

**Use Old Magazines to Make a Collage With Your Child!**

Help your child look through old magazines, cut out pictures, and glue them on a blank piece of paper to make an ART collage.

**Materials:** Magazines, glue, paper, and scissors

- As you and your child go through the magazines, point out pictures and discuss them. Tell your child you are working together to make a collage.
- Depending on your child's age, he/she can cut out the pictures or simply tear them.
- Work together & rub glue on the back of the pictures and place them on the paper. Repeat until the paper is full of pictures. Enjoy the beautiful collage you and your child made together!

You can also make theme collages, like only including pictures of things that start with a certain letter, or only pictures of fruits and vegetables, or a certain color. Be creative!

**Open-ended question: Tell me about the collage that you made.**
